

## E-LEARNING PLATFORM

- ✓ P3 (KLAIPEDOS VALSTYBINE KOLEGIJA, Lithuania) has developed the technical environment of the platform in Moodle according to the needs outlined in the training plan.
- ✓ This E-learning platform contents two main sections:
  - A. **Training Courses** used to perform next activities of Green Roofs Technician Training Program, such as: **Train the Trainers` Activity, selection of the 30 students (from three different partners) who will participate in a green roofs training of two months in Porto (Portugal) and Pilot Activities;**
  - B. **Work and Internship Opportunities.** All partners will contribute to enrich the list of stakeholders (enterprises, local authorities, agencies and other actors available to offer internships to trainees after the completion of the course) willing to host trainees after the completion of the training courses.

## TRAIN THE TRAINERS` ACTIVITY

- ✓ This activity will take place at the Catholic University of Porto (R. de Diogo Botelho 1327, 4169-005 Porto - Portugal), on May 27<sup>th</sup> and 28<sup>th</sup> 2024.
- ✓ **The main goal of this training will be to test the training methodology, the platform, the contents of the Learning Snacks and the training courses.**
- ✓ Before participating to the activity, partners will be asked to start studying some educational material online as the training courses follows a blended teaching methodology.
- ✓ Results of the pilot test both from a technical and pedagogical point of view will be collected by P5 ("Dunarea de Jos" University from Galati).
- ✓ **Two people per organization will join the activity, for a total of 14 people among professors, trainers and project managers.**

## LEARNING SNACKS DEVELOPMENT

- ✓ P2 (GOSPODARSKA ZBORNICA SLOVENIJE, Slovenia) is developing a collection of Learning Snacks including:
  - A. **One or more short videos per each module/topic of the Training Courses .**
  - B. **A Toolbox of educational tools and additional resources.**
- ✓ After the Train the Trainers` Activity, the contents of the Learning Snacks will be fine-tuned according to the lessons learnt and the feedback received.
- ✓ Once the contents are finalized, they will be translated into partners` languages by each participating organization (videos will be in English with subtitles in other languages).
- ✓ **The collection of Learning Snacks will be hosted on a dedicated section of the E-learning platform Green Roofs Technician Training Program.**
